

**REGISTER NOW!!!**

For those registrants who have selected to register through third party providers, please be advised that you may be charged an additional processing fee. Therefore, please register directly online (using Microsoft Explorer or Google Chrome) through our portal at <https://portal.phmsa.dot.gov> or our mailing address below.

**Tip 1:** Portal - If you do not have a login ID/password or new to the company, it must be created in the portal before entering the registration website (see highlights in yellow). If you forgot your password or user name, no worries, there is also a link to help with that. The user ID/password is not company generated, but instead generated per user. Therefore, you can use your own name and personal information to register with us.

**Tip 2:** Each user MUST enroll in the PHMSA portal by creating their own user ID and password. After you create your user ID/password, you will receive an email with the user name and password. There is a

registration “link” to take you directly to the registration main page, which is included in the email. However, if you still need help, please email our portal team at [PortalSupport@dot.gov](mailto:PortalSupport@dot.gov) for assistance.

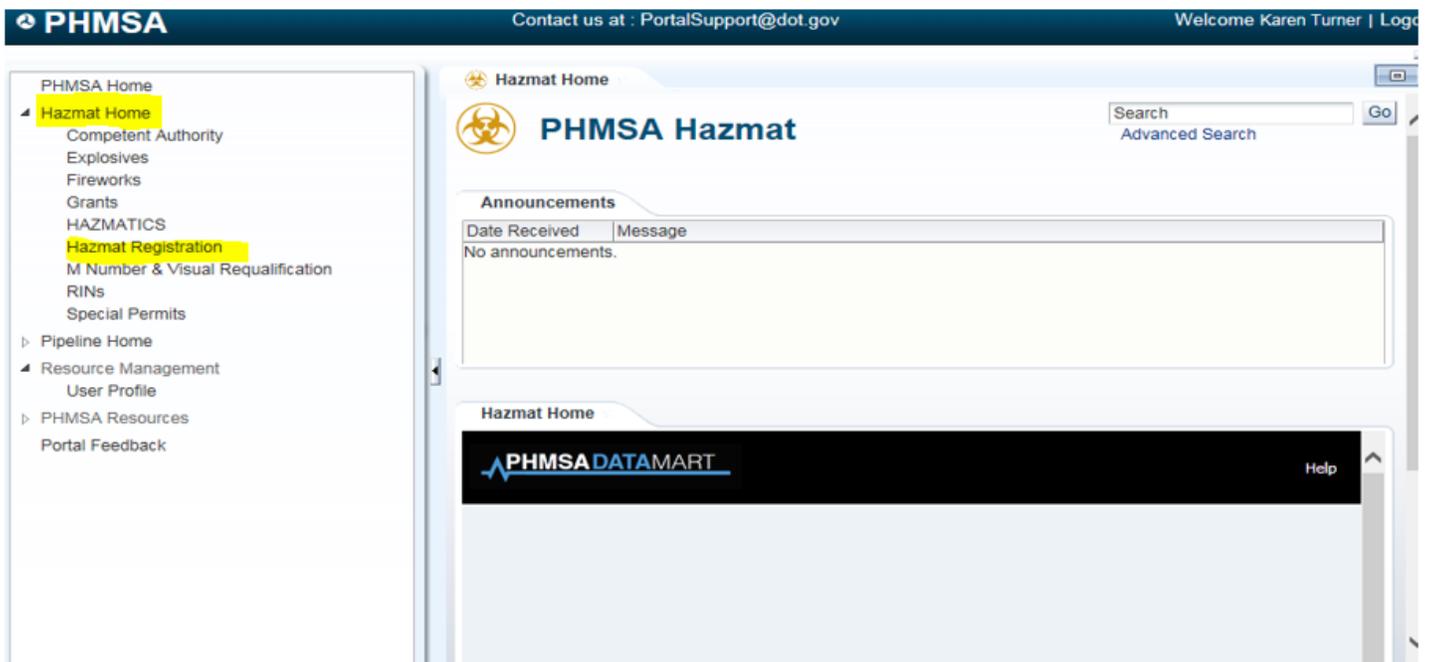

The image shows a registration form for the PHMSA Portal. The header includes the PHMSA logo, "Pipeline and Hazardous Materials Safety Administration", and the U.S. Department of Transportation logo. Other categories include "Pipeline Home", "Resource Management" (with "User Profile" sub-link), and "PHMSA Resources" (with "Portal Feedback" sub-link). The main content area features a "PHMSA Hazmat" header with a biohazard icon and a search bar. Below this is an "Announcements" section with a table header "Date Received | Message" and the text "No announcements." At the bottom, there is a "PHMSA DATAMART" banner with a "Help" link.
