Mr. Jim Barron
Executive Director
Maryland Underground Facilities Damage Prevention Authority
7223 Parkway Drive, Suite 100
Hanover, Maryland 21076

Dear Executive Director Barron:

On November 21, 2019, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of Maryland's enforcement of its excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D -- State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of Maryland's excavation damage prevention law is "adequate."

As you may be aware, excavation damage continues to be a leading cause of pipeline failures, some of which have resulted in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

In closing, PHMSA appreciates your dedication to safety and encourages the Maryland Underground Facilities Damage Prevention Authority to continue to support damage prevention outreach initiatives that promote 811 and safe digging practices. Should you have any questions regarding this letter, please contact Dr. Christie Murray, our Director of Outreach and Engagement, at (202) 366-4996 or by email at Christie.Murray@dot.gov.

Sincerely,

Massoud Tahamtani
Deputy Associate Administrator, Policy and Programs
Office of Pipeline Safety

cc: Ms. Susan Ann Mary Stroud, Deputy Director, Maryland Underground Facilities Damage Prevention Authority
