[Docket No. HM-57; Amdts. 171-14, 172-14, 173-61, 174-14, 175-7, 177-21]

**PART 171—GENERAL INFORMATION AND REGULATIONS**

**PART 173—SHIPPERS**

**Classification of Corrosive Hazards; Notice of Board Action To Authorize Immediate Compliance**

On March 23, 1972, the Hazardous Materials Regulations Board published Docket No. HM-57; Amendments Nos. 171-14, 172-14, 173-61, 174-14, 175-7, 177-21 (37 F.R. 5946) prescribing new regulations for the classification, packaging, marking, labeling, and transportation of corrosive materials. It was stated that these amendments became effective December 31, 1972, however, compliance was authorized as of October 1, 1972.

The Board has been advised that the 3-month period authorized effectively limits the conversion period in a manner that precludes efficient changeover, particularly where leadtimes in packaging orders and disposal of existing stock are highly variable. It has been suggested that compliance be authorized immediately to permit the needed latitude. The Board Members for the Federal Aviation Administration, the Federal Highway Administration, and the Federal Railroad Administration have agreed to expand the implementation period and to advise the public by notice thereof in the FEDERAL REGISTER effective with the publication of this notice.

Accordingly, all amendments in Docket No. HM-57 continue to be effective December 31, 1972; however, compliance with the regulations as amended in this docket is authorized immediately.

Issued in Washington, D.C., on April 21, 1972.

ALAN I. ROBERTS,  
Secretary.
